

All You Need To Know About WinTrillions’ World Lottery Championship

The biggest lottery competition is happening at WinTrillions this year! Now, you can play all your favorite lotteries and participate for weekly prizes and a prize pool of US\$ 6,000!

Joining this event is simple. All you need to do is get tickets for your favorite lotteries, or the ones you think are the most likely to classify into the next round. The World Lottery Championship consists of a preliminary competition or group stage and a final competition. The group stage will be played from Sunday, November 20, 2022, to Friday, December 2, 2022. The final competition will consist of a round of 16 that will be played from December 3 to 6, 2022, quarter-finals that will be played on December 9 and 10, 2022, the semi-finals that will be on December 13 and 14, 2022, the play-off for third place that will be on December 17, 2022, and the final that will be on Sunday, December 18, 2022.

Check Out the World Lottery Championship Fixture!

Group G	Group G
EuroMillions Max Team	Rifa El Gordo de Navidad
EuroMillions	UK Thunderball
Group H	Group H
La Primitiva Team	Florida Team
La Primitiva	German Lotto

What Happens After the Group Stage?

The classifying lotteries will play the round of 16 as follows:

First place	Second Place	Winner
Group A	Group B	1
Group B	Group A	2
Group C	Group D	3
Group D	Group C	4
Group E	Group F	5
Group F	Grupo E	6
Group G	Group H	7
Group H	Group G	8

Then, the eight winning lotteries will participate in the quarter-finals, which would look something like this:

Winning lottery	Winning lottery	Lottery that classifies
1	3	A
5	7	B
2	4	C
6	8	D

Now, it's time to live the excitement of the semi-finals! These will have the following format:

Semi-final 1	Semi-final 2
Winner A	Winner C
Winner B	Winner D

The lotteries that win the semi-finals will go to the final, and those that lose will compete for third place.

If there is a tie between two lotteries, then the one that classifies will be the one with more goals in favor. If there's still a tie, the winner would be the lottery that sold the most tickets. Still a tie? Don't worry! In that case, a draw will be held to determine the winner.

Don't Miss This Championship's Mind-Blowing Prizes!

All you have to do to participate for our fabulous prizes is buy at least one ticket or lottery team share. We'll have weekly draws, randomly choosing three players who will receive incredible discounts! You could win 30%, 50%, or even 70% OFF on any lottery each week!

And at the end of the World Lottery Championship, we'll give prizes to the top four players. The first place will get US\$ 3,000, the second place will win US\$ 1,500, the third will receive US\$ 1,000, and the fourth place will get US\$ 500. That's an overall of US\$ 6,000 in prizes!

Are You at the Edge of Your Seat? This Is How You Can Participate and Win!

Time for the juicy part. As we've mentioned, you'll participate by getting at least one ticket or lottery team share. But how can you win first place?

Well, you can participate in matches between lotteries by purchasing tickets for one or the other or even for both lotteries facing off in each match. If the lottery you bought the day of the game wins, you'll receive 5 points per ticket. If it ties, you'll receive 3 points per ticket. And if it loses, you'll get 1 point per ticket purchased.

Are you a fan of lottery teams? Then, you must know that when buying a share in a lottery team, you will receive a certain amount of tickets to participate. The points gained on the lottery match will be determined by multiplying the number of tickets by the points gained.

At the end of the World Lottery Championship, all transactions will be reviewed, and those cancelled will be deducted from your overall score.

Then, all points will be added to the leaderboard. The top four players will win first, second, third, and fourth place prizes. So, all you have to do to win first place is get as many tickets as possible. And remember that shares of lottery teams will give you an edge over other players and more points if your lottery team wins the match.

How Do Lotteries Win, Tie or Lose Matches?

To determine if a lottery wins, ties, or loses against another lottery, the total number of tickets sold for both will be taken as 100%, and the percentage of those tickets that each lottery gains will determine the result of the match according to the following chart:

Rules for the preliminaries and finals	
Based on the tickets sold the day of the match	
Percentages	Results
55% / 45%	0-0
55-60% / 45-40%	1 a 0
60-65% / 40-35%	2 a 0
65-70% / 35-30%	3 a 0
70-80% / 30-20%	4 a 0
>80% - <20%	5 a 0

Don't forget that if there is a tie between two lotteries, then the one that classifies will be the one with more goals in favor. If there's still a tie, the winner would be the lottery that sold the most tickets. Finally, if the tie persists, then a draw will be held to determine the winner.

The results will be published the day after each match.
